## Application for Pipeline Crossing Permit

IF GRANTED, THIS PERMIT IS SUBJECT TO THE FOLLOWING CONDITIONS, REQUIREMENTS, AND CONVENANTS, TO-WIT:

1. Applications for road crossings must be submitted to the County Clerk for approval by the Board of County Commissioners (BOCC) with a Permit Fee in the amount of One Thousand Dollars (\$1,000.00) per crossing permit requested made payable to TILLMAN COUNTY;
2. The fee for parallel water lines is Two Hundred Fifty Dollars (\$250.00) per mile for each thirty (30) days the lines are in place;
3. All telephone companies, public utility companies, and private land owner crossing permits shall be exempt from the Permit Fee;
4. If road damages occur, Applicant shall be financially responsible for said damages and shall make payment for road repairs to Tillman County within (2) weeks of invoice date. It is the responsibility of the Applicant/Contractor to report any and all damages to the BOCC as soon as possible after damages occurs;
5. Underground construction of pipelines, phone, cable, or utility lines that cross County roadways shall be bored. **NO** ditch or trench shall be opened by Applicant/Contractor in a County road, unless previously agreed to in writing by the BOCC;
6. Above-ground water lines running parallel with the road are temporary and shall be placed within three (3) feet of the right-of-way so as not to disrupt road maintenance. Any line interfering with road maintenance equipment will be removed. If road damage occurs as a result of temporary line(s) running through a culvert and substantially reducing the drainage capacity of said culvert, the Applicant shall be financially responsible for said damages and shall make payment for repairs to Tillman County within (2) weeks of invoice date. Temporary ground lines in place for more than thirty (30) days will require additional fees;
7. All signage as to pipeline ownership shall be posted on, or as close to the right-of-way as possible;
8. All underground parallel lines shall be installed at the following minimum depths: power lines, forty-eight (48) inches; telephone/cable lines, twenty-four (24) inches; all other lines, (30) inches.;
9. All underground crossing shall be installed at a minimum of three (3) feet below the elevation of the centerline of the road or two (2) feet below the elevation of the ditch, whichever is greater. High pressure pipeline crossing shall be installed a minimum of four (4) feet below the elevation of the ditch. High pressure pipelines are defined as pipelines designed to operate at pressures in excess of One Hundred Twenty-Five (125) PSIG;
10. All overhead lines shall not cross any County road nor any point of access to the County road at a height of less than required by the Oklahoma Corporation Commission;
11. All Section and Quarter-Section corner markers shall be protected. No pipeline shall cross an intersection diagonally;
12. Applicant/Contractor agrees to keep road open to traffic during installation unless otherwise agreed to or approved by the BOCC. Applicant/Contractor shall meet all applicable laws and regulations, including those in the Manual on Uniform Traffic Control Devices (MUTCD) appropriate for the applied for construction project;
13. Applicant shall relocate pipeline, phone, cable, or utility line, if and when it interferes with road construction or maintenance, upon written notice from the BOCC;
14. Applicant agrees to design pipeline road crossings as follows:
  - a. If encased, casing shall extend from right-of-way to right-of-way;

# Application for Pipeline Crossing Permit

- b. If non-cased, and of steel, pipe within the right-of-way shall be superior to pipe outside of right-of-way and buried to a depth of six (6) feet:
  - i. By being at least one grade better and of the same thickness, or ;
  - ii. Being a minimum of one wall thickness greater and of the same alloy, or;
  - iii. In the case of equal diameters, being proven superior by use of the pipe design formula as per 49 CFR Part 192.105;
- c. If non-cased, and of plastic, pipe within the right-of-way shall be installed:
  - i. At a minimum depth of six (6) feet below the elevation of the ditch, or;
  - ii. If buried with less than six (6) feet of cover, approval prior to construction must be obtained from BOCC;
  - iii. When crossing a road, high pressure pipelines will be covered by a concrete slab;

15. Applicant agrees to indemnify and hold Tillman County harmless for any damage to person or property caused by Applicant's construction or maintenance of any poles, posts, stubs, pipes, valves, wires, and other property placed on or under said highway, pursuant to this application. Applicant further agrees to be financially responsible for repairing all damages to the roadway caused by Applicant's construction;

16. BOCC has the right to modify all road permits to fit unique situations;

APPROVED this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.
